ACCESSORIES - SPECIAL ORDER ONLY

Push Button

Unit doorbell button for remote entry or exit control. Wires directly to the control board and uses 16 gauge multi-stranded, dual conductor low voltage wire. (2-0-2706)

14.99

Low Voltage Wire

16 gauge, multi-stranded, dual conductor, Low Voltage Wire for connecting the AC powered transformer, or the Solar Panel to the control board. Also uses for the connection of accessories, such as locks, keypads, push buttons and other wired control devices. This specially designed wire is UV treated, PVC coated and ready for direct burial. Available in 1000 ft. rolls or special lengths. (2-0-2712)

45¢/ft

Pin Lock

Substitutes for the clevis pin at either or both mounting points of the opener. Helps theft of the opener from the gate, while allowing quick release of the opener. (2-0-2707)

29.99

Digital Keypad

Specially designed keypad can be easily installed as a wireless or wired keypad. It can be programmed to use up to fifteen different personal identification number (PIN) codes. Each code is face programmable with additional security features built in. 3 "AA" batteries (not included). Wired installations require 16 gauge, low voltage, multi-stranded, dual conductor, direct burial wire (sold separately). (2-0-2710)

79.99

Key Chain Mini Transmitter

Miniature version of the Mighty Mule® entry transmitter with the same adjustable code settings. 12 volt battery included. (2-0-2708)

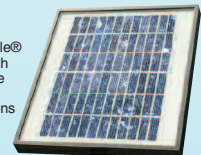

39.99

Solar Panel

5 watt solar powered battery charger for use with both Mighty Mule® gate open system. Particularly suited for remote installations, each Solar Panel comes with tubular steel support, mounting clips, wire connectors and 8 ft. of low voltage wire. The Mighty Mule control board has clearly labeled terminal connections for easy installations of the Solar Panel. (2-0-2705)

219.99

Entry Transmitter

Adjustable code settings. Standard equipment for both Mighty Mule® systems. 9 volt battery included. (2-0-2709)

44.99

Automatic Gate Lock Pull-to-Open

A MUST for added security. Solenoid driven, plated steel bolt lock with a zinc plated steel housing. Unlocks and locks automatically as gates open and close. Used with Mighty Mule® system for maximum stability and security. Comes with a keyed manual release. Recommended for gates over 8 ft. long. Ideal for animal enclosures or high wind areas. (2-0-2711)
