

# Water Buoy Solar Powered Pumps

Water Buoy Solar Powered Pumps signify the most creative and innovative advances in the livestock watering technology. Never before has a watering system been available that is so easy to use. Set up is virtually trouble free. No tools are required. Water Buoy pumps float in the water. They are self priming and self draining offering good frost protection. Your pump will work better for longer and make better use of the energy generated. The "Solar Sled" can be placed and moved anywhere at any time.
